What's the main story?

- 1 You should always take the enterprise, the team and the benefactors of the proposed solution into account
- 2
- 3
- 4 You should know your skills, strengths and weaknesses; and in time you should work on both
- 5 Your skills must use compatible processes as your metamorphosis chamber
- 6 With several defeats and victories, wisdom will come if you have perseverance
- 7 You will come up with new ideas that will change your community, the future of its inhabitants and your nature; you will be reborn after each challenge
- 8 Having made an impact on the culture of your community, you will give the flag to the ones who come after you

Circle is complete! Let's begin another!
